## Submerged counter stream swim units Onderwater teenstroom-swemeenhede

reddot design award  
winner 2010

### BADU® Jet Vogue

#### FEATURES

- A powerful jet pump is connected to an award winning and eye catching designed, stainless steel jet housing which is flush-mounted in the pool wall (no danger or injuries, as none of the parts project into the pool).
- Through the annular channel around the casing the water is conveyed to the jet pump under low pressure and returned under high pressure through its nozzle.
- Built-in LED light, which can be operated from the pool as well as the pneumatic switch.
- On-/off switch under water.
- The flow rate is adjustable.
- A Tingling, invigorating air bubble bath can be attached.
- Plug-on hose with pinpoint massage nozzle or pulsator lend the finishing touch to your bathing fun (optional).
- The Badu® Jet Vogue is fully factory tested and together with the internal parts carries a 12 month ex-factory warranty from date of purchase.

Massage pressure (bar) max.	
Omni directional swivel nozzle (degrees)	
Attachable massage hose (also pulsator type)	
Nozzle for pinpoint Massage available	

What is the BADU®Jet Vogue counter stream swimming unit? The BADU®Jet Vogue is a powerful exercise unit that lets you swim on the spot for ours, regardless of the size of your pool.

The BADU®Jet Vogue can be installed in any type of pool, new or existing, from concrete through to vinyl liner. Enjoy the luxury of a massage by attaching the optional extra massage hose with pulsator. The BADU®Jet Vogue will add fun and value to your pool. The BADU®Jet Vogue comes complete with a Stainless steel jet housing, 2.2kW (3Hp) single phase pump, control box and optional extra massage hose.

Fields of application include mounting into the walls of all types of pools, as a conversation piece, for fitness training, as a wave air bubble bath, for underwater massages (consult physician), endless no-lap swimming with no need to turn around, even in the smallest pool.

Wat is die BADU®Jet Vogue teenstroom-swemeenheid? Die BADU®Jet Vogue is 'n kragtige oefenapparaat wat u toelaat om ure aaneen op dieselfde plek te swem, ongeag die grootte van die swembad.

Die BADU®Jet Vogue kan in enige tipe swembad, oud of nuut, geïnstalleer word, van beton- tot vinielwembaddens. Geniet die luukse van 'n massering deur die opsionele masseerpyp met pulsator aan te heg. Die BADU®Jet Vogue sorg vir baie pret en sal u swembadervaring verhoog. Die BADU®Jet Vogue kom volledig met spuitkopomhulsel, 2.2 kW (3 Hp) enkelfasepomp, kontrolekas en opsionele masseerpyp.

Die BADU®Jet Vogue kan in die muur van enige tipe swembad/poel gemonteer word as 'n fokuspunt, vir fiksheidsoefeninge, as 'n lugborrelbad met golwe, vir onderwater massering (raadpleeg 'n dokter), of ure se swem sonder omdraai, selfs in die kleinste swembad.

#### EIENSKAPPE

- 'n Kragtige straalpomp word aan 'n bekroonde en wenkbrouliggende ontwerpte vlekvrye staal straalomhulsel gekoppel wat gelyk met die swembad se muur gemonteer word (dus geen gevaar van beserings nie omdat daar niks is wat uitsteek in die swembad nie).
- Die water word onder lae druk deur die ringkanaal rondom die omhulsel na die straalpomp vervoer en onder hoë druk teruggepomp deur die spuitkop.
- 'n Ingeboude LED-lig wat in die swembad of deur die pneumatiese skakelaar gewerk kan word.
- Aan/afskakelaar word onder die water geïnstalleer.
- Die vloei tempo is vertelbaar.
- 'n Tintelende, verrissende lugborrelpyp kan aangeheg word.
- Inprop-masseerspuitkop of -pulsator is 'n optionele ekstra.
- Die Badu® Jet Vogue is volledig fabriek-getoets en het saam met die interne komponente 'n 12 maande fabriekswaarborg vanaf datum van aankoop.
