

SPECK PUMPS Small Weir

Speck Pumps Klein Stuwër

SPECK PUMPS Small Weir

SPECK PUMPS Small Weir is manufactured from high quality plastic materials and is designed for all types of swimming pools i.e. Gunite or hand packed concrete, fiberglass and liner.

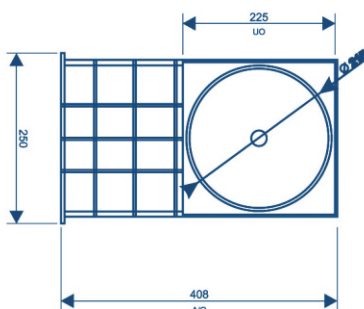

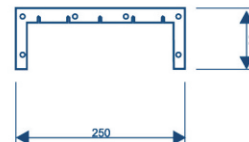

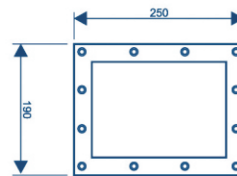

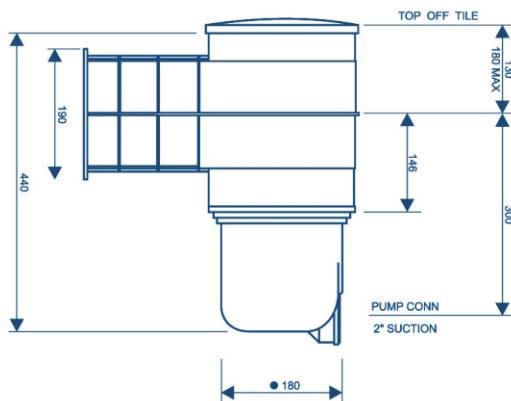

Die SPECK PUMPS Klein Stuwër (Weir) word vervaardig van hoë gehalte plastiese materiale en is ontwerp vir alle soorte swembaddens soos spuitement- of geboude beton-, glasvesel- en vinielswembaddens.

FEATURES

- A deck collar that has an adjustable height which allows for the usage of any thickness of paving or tile around this unit.
- The leaf trap basket is designed in such a way as to provide maximum surface area. The unique vacuum lid ensures that it retains its position at all times. This prevents bigger particles and debris from entering the pump leaf trap basket. The leaf trap basket is easy to clean.
- A rigid designed housing with reinforced ribs for strength.
- An extremely low placed vacuum lid that prevents air being sucked into the suction line when using an automatic pool cleaner.
- Front cover plate is available in black or white.

EIENSKAPPE

- 'n Dekkraag waarvan die hoogte verstelbaar is om voorsiening te maak vir verskillende diktes plaveisel of teëls rondom die eenheid.
- Die blaarmandjie het 'n groot opvangarea. Die unieke vakuumdaksel verseker dat die mandjie te alle tye presies in plek bly. Dit keer dat groter stukke vullis in die blaarmandjie beland. Die blaarmandjie maak maklik skoon.
- 'n Stewige omhulsel met versterkte ribbes vir ekstra sterkte.
- 'n Baie laag geleë vakuumdaksel om te voorkom dat lug in die suiglyn ingesuijg word wanneer 'n outomatiese swembadskoonmaker gebruik word.
- Die voorste dekplaat is beskikbaar in swart en wit.
